

**Report Identification Number: SY-18-002**

**Prepared by: New York State Office of Children & Family Services**

**Issue Date: May 21, 2018**

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child's family; any extraordinary or pertinent information concerning the circumstances of the child's death; whether the child or the child's family received assistance, care or services from the social services district prior to the child's death; any action or further investigation undertaken by OCFS or the social services district since the child's death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child's household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child's siblings or other children in the household.**

OCFS' review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS' assessment and the performance of these agencies.

## Presenting Information

On 1/9/18, a completed OCFS 7065 form was received from Oneida County Department of Social Services (OCDSS) regarding the death of a 17-year-old male child, who was involved in an open preventive services case. The form indicated that on 1/4/18, the child was involved in a fatal motor vehicle accident. The details of the accident are unknown. The incident took place in the Dominican Republic where the child was visiting his father.

## Executive Summary

This fatality report concerns the death of a 17-year-old male child that occurred on 1/4/18. A completed 7065 form was submitted to OCFS on 1/9/18. At the time of the child’s death, he and his mother were engaged in a voluntary preventive service case through OCDSS. The preventive case was opened due to issues of truancy and the child’s ungovernable behaviors. There were no surviving siblings or other children living in the home.

The child had gone to visit his father during Christmas break. It was unknown how long he planned to stay for. OCDSS learned the child had been racing mopeds with some friends down a street that was under construction. The child lost control of his moped and crashed head first into a concrete barrier. The child had not been wearing a helmet. A passerby took the child to the hospital where he was pronounced dead. The child was buried out of country.

OCDSS interviewed the mother and attempted contact with the father but were unsuccessful. OCDSS offered appropriate services to the mother such as grief counseling.

OCDSS gathered facts regarding the circumstances of the child’s death from the mother and peers of the child. It is unknown if there was an autopsy completed on the child. OCDSS made extraordinary efforts to contact law enforcement and medical staff in the Dominican Republic to obtain details of the fatal accident. OCDSS was unsuccessful reaching any officials with knowledge of the accident.

The preventive case was closed on 5/9/18 as mother was no longer in need of services.

## LDSS Response

On 1/5/18, OCDSS was notified SC died in a motor vehicle accident that occurred on 1/4/18. The accident occurred in the Dominican Republic where the child had been visiting his father. At the time of SC's death, OCDSS had an open preventive services case which involved SC and BM. The preventive services caseworker was made aware of the death by a local agency who assisted the mother with language interpretation services. CW tried arranging a home visit with BM but she had left for the Dominican Republic on 1/4/18 and was gone for approximately one month.

CW contacted school officials to see if they had any details on the child's death and peers of the child said SC died in a dirt bike accident. There were no further details.

CW met with BM on 2/9/18 with the assistance of a Spanish speaking interpreter. BM had learned from the child's father that SC was with some friends riding around on mopeds and were racing down a street where construction was taking place. SC lost control of his moped and went head first into a concrete road barrier. SC was not wearing a helmet. BM was unable to provide the names or contact information for any possible witnesses to the accident. BM said from what she was told, police were never called to the accident and they never wrote an accident report. BM described this as being typical in the Dominican Republic, that police often do not show up for accidents. BM said a passerby had stopped and put SC in his vehicle and drove him to the hospital where he was pronounced dead on arrival. The passerby knew SC's father and called to inform him. BM gave CW the name of the hospital she was told the child was taken to. BM did not know the name of the doctor who examined SC and pronounced him dead. OCDSS made extraordinary efforts to contact collateral sources in the Dominican Republic to verify what took place but were unable to find the hospital BM referred to, and were also unable to contact any authorities who were aware of the child's death. OCDSS attempted contact with local police, the national military, the American Embassy, and an agency called Citizen Attention. OCDSS was unsuccessful in obtaining any information on the child's death. BM provided the CW with a death certificate and said the child was buried in the Dominican Republic. This was the only documentation they could obtain. CW tried contacting the father by phone and was unsuccessful.

CW provided BM with information on local support groups in the community that offered grief counseling.
